

a Complete SG3 detector-cryostat mass model

Exact $y' = 0$ mesh sections with the SG3 Cu ring, 4.796-mm Bi half-cylinder, and Al cold-stage enclosure; the transverse view resolves the six-module TES shielding relation.

■ Ta (TES) ■ Bi ■ Cu ■ Al ■ BGO ■ W — sectioned retained solids

b Detailed SG3 detector-bay section

c SG3 Bi/TES transverse detail
